

Steady Waves living funeral team-building experience

a unique and transformative event for your team

What is a living funeral?

The ceremony is a 4-hour long experience which focuses on turning towards one's own mortality. Participants are faced with their own memorial, are told to write their last words, and then are lead through a death visualization.

Why would I send my employees to their own funeral?

I hear you. It may sound bizarre, but this experience is just so crazy it works! It offers participants a refreshed outlook on life, more connection and kinship with fellow co-workers, and an overall feeling of positivity and gratitude. Participants leave with deep and lasting uplifting effects... your employees will *never* forget it!

Did you make this up?

Well, sort of. I got the idea from South Korea, where organizations perform these “mock” funerals for corporations and individuals all over the country. I’ve tweaked and adapted my ceremony for US tastes.

How many of my employees can attend at once?

Maximum capacity is 15 people per ceremony. I am able to perform 2 ceremonies per day. I offer package rates if more than one ceremony is desired.

Costs:

I work directly with companies to reach a workable fee for the both of us. Below is a sample of an offered package, but please contact me to negotiate a rate.

Sample package		
Ceremony fee	\$1,500	
Travel within Austin city limits	\$10 flat rate	
Travel outside of Austin city limits	additional \$1 per 2 miles	

Thank you for considering Steady Waves living funeral for your team-building event!
